SKILLS

Programming Languages: C#, JavaScript (ES6), Python, Java, C++

Technologies & Frameworks: ASP.NET Core, ASP.NET Core MVC, Web API, Entity Framework Core, SignalR, AutoMapper, React, Bootstrap, HTML5, CSS3

Software Architecture: Clean Architecture, Onion Architecture, SOLID Principles, Clean Code

Database & Tools: SQL Server, LINQ, Git, GitHub, Postman, Visual Studio, Visual Studio Code

Design Patterns & Fundamentals: OOP, Repository Pattern, Unit of Work, Specification Pattern, Result Pattern, Data Structures & Algorithms

Soft Skills: Communication, Teamwork, Problem Solving, Time Management, Structured Thinking, Persistence

TECHNICAL EXPERIENCE & PROJECTS

Herafy (Graduation Project) – Lead Backend Developer

Jan 2026 – Present

- Architected a scalable service-matching backend using **Onion Architecture** to decouple core business logic from infrastructure, supporting 3 user roles.
- Implemented a secure, passwordless authentication pipeline handling 100% of user logins via phone numbers, integrated with **Twilio API** for SMS-based OTP verification.
- Implemented secure **JWT Authentication** and **Role-Based Authorization** for 3 user roles (**Admin**, **Client**, and **Technician**) to enforce secure access control across the platform.
- Engineered a dual-sided onboarding workflow requiring identity verification via 2-sided National ID uploads, pending Admin approval before granting platform access.
- Designed a dynamic request-and-bid mechanism allowing clients to post location-specific issues across 5+ service categories and enabling technicians to submit price offers.
- Developing a real-time chat system utilizing **SignalR** to support seamless negotiation and communication channels between clients and technicians post-acceptance.
- Developed a comprehensive Admin Dashboard API to manage users, resolve complaints, moderate client reviews, and compute 10+ system-wide operational statistics.
- Tools & Patterns Used:** .NET 8, Web API, Onion Architecture, Identity, JWT, SignalR, Redis, Twilio, EF Core, LINQ, Repository & Unit of Work Patterns, Specification Pattern, Result Pattern, Service Manager.
- GitHub :** github.com/sherreen1/Herafy

ONS Mental Health Platform (DEPI Graduation Project) — Backend Developer

Jun 2025 – Dec 2025

- Developed a secure and scalable backend for an online mental health platform connecting patients with licensed therapists through private therapy sessions.
- Developed **35+ RESTful APIs** supporting authentication, appointment booking, therapist management, posts, comments, and therapy session management using **ASP.NET Core Web API** and **Entity Framework Core**.
- Implemented **JWT Authentication & Authorization** to ensure secure access, role-based authorization, and data privacy.
- Applied **N-Tier Architecture**, **Dependency Injection**, and the **Repository Pattern** to build scalable and maintainable services.
- Improved application performance and reliability by implementing **Pagination**, **Caching**, and **Global Exception Handling**.
- GitHub:** github.com/sherreen1/OnsMentalHealth

RemoFlowery — Frontend Developer

2024

Developed a responsive flower store website by translating a modern UI/UX design into a pixel-perfect front-end using **HTML5**, **CSS3**, and **Bootstrap**.

Built responsive layouts using **Bootstrap**, **Flexbox**, and **CSS Grid**, ensuring a seamless experience across desktop, tablet, and mobile devices.

Implemented smooth animations, hover effects, and reusable UI components to enhance user experience and maintain clean, maintainable code.

Designed and implemented 6+ responsive sections including Hero, About, Branches, Collections, Services, and Contact.

EDUCATION

Bachelor of Computer Science

Sep 2022 – Jun 2026

Faculty of Computers and Artificial Intelligence, Sohag University

Sohag, Egypt

Grade: Very Good

COURSES

- | | |
|---|----------------------------|
| • Full Stack Development – Digital Egypt Pioneers Initiative (DEPI) | Jun 2025 – Dec 2025 |
| • Front-End Web Development Using Angular – Information Technology Institute (ITI) | Jul 2024 – Aug 2024 |
| • Software Development Fundamentals – Information Technology Institute (ITI) | Jul 2023 – Aug 2023 |

LANGUAGES

- **Arabic:** Native
- **English:** Upper-Intermediate
